## General Information:

Northern shrimp have a short life, which contributes to a variable stock on a yearly basis. However, the species is not considered overfished due to a large biomass reported and the large resources available in Canada and the rich fishing grounds of the Arctic. The Canadian fishery began in the 1980s expanded in 1990s and is a viable and stable fishery today.

## Latin Name:

*Pandalus borealis*

## Fishing Season:

Caught using a mid water trawl net and then cooked and frozen at sea minutes after being caught. Fished year round depending on bio mass reports and yearly restrictions.

## Average size and Weight:

In their 8 year lifespan, males can reach a length of 120 mm (4.7 in), while females can reach 165 mm (6.5 in) long and can be full of roe.

## Product Available / Frozen

Product is sold cooked whole frozen and graded by the ct per kilogram.

## Sensory Characteristics:

A rich, firm white meat, subtle, yet classic shrimp flavor. Excellent for appetizer as a peel and eat or as an ingredient in main dishes.

**Cool:** wild caught, Canada

## Ingredients:

Cold Water Prawns

**Quality Control:** HACCP  
& CFIA approved
